

ULTRASOUND – CRITICAL CARE WORKSHOP

This course is designed for those working in the critical care setting.

COURSE OVERVIEW

This course is designed for those working in the critical care setting to have a fundamental understanding of the techniques and interpretation of ultrasound at the bedside with a focus on RUSH techniques including HI MAP, and ultrasound guided intervention.

The course has pre-course lectures to complete online followed by our face to face 2 day intensive hands on workshop where you will be supervised in performing scans on live models. Limited places available and 1:4 hands-on training.

RECOMMENDED PRE-COURSE READING

1. Manual of Emergency and Critical Care Ultrasound, Second Edition
2. Emergency Ultrasound, Second Edition

COURSE DATES 2019
