

ULTRASOUND – UPPER + LOWER LIMB

This 1 day course is designed to give participants an overview of the techniques + interpretation for ultrasound of the upper + lower limb.

COURSE OVERVIEW

With a combination of online modules prior to a 1 day hands-on workshop, this course is designed to give participants an overview of the techniques + interpretation for ultrasound of the upper + lower limb. During this hands-on workshop you will be guided in performing scans on live models and musculoskeletal interventional techniques on phantoms.

- ▶ Includes online pre-course modules, lectures, case reviews + post course test
- ▶ Suitable for General Radiologists, General Practitioners, Sports Physicians, Orthopaedic Surgeons, Physiotherapists and Sonographers.
