

X-RAY | EMERGENCY INTERPRETATION ESSENTIALS

A Systematic Review of the Fundamental Principles in Emergency X-Ray Interpretation

COURSE OVERVIEW

The goal of the course is to provide practitioners with the knowledge and confidence to review radiographic techniques and recognise radiographic patterns of trauma and injury commonly encountered for each body area. Interactive multimedia live group sessions are undertaken with lectures.

- ▶ Includes pre-course online modules, pre + post course competency test
- ▶ Suitable for General Practitioners, Critical Care Physicians, Emergency Physicians, Registrars, House Officers, Interns, Radiographers and Physiotherapists.
