

CT | ACUTE MEDICAL + SURGICAL INTERPRETATION ESSENTIALS

The perfect introduction to computed tomography in the acute clinical setting.

COURSE OVERVIEW

New format and content makes our CT course an essential addition to your diagnostic skill set. This interactive 1 day course covers acquisition, normal variations, patterns of disease and pitfalls in CT imaging of the head, chest, abdomen and pelvis.

Case reviews for each module reinforce fundamental learning objectives. Our goal is to give participants the knowledge and confidence to interpret CT findings commonly encountered in acute clinical settings.

This course has been designed for critical care physicians, surgeons, general practitioners, registrars, house officers, interns and radiographers.

The course includes 4.25 hours of online pre-course work and a post-course test on completion.

2022 COURSE DATES

MELBOURNE
3 April
