

ULTRASOUND | CRITICAL CARE

This course is designed for those working in the critical care setting.

COURSE OVERVIEW

This intensive two-day course is designed to meet ACEM credentialing requirements for those working in critical care settings. Our expert faculty of emergency physicians and sonographers will provide comprehensive hands-on training to improve your scanning skills and confidence in machine operation, image acquisition, and interpretation of common critical care pathologies.

The course has pre-course lectures to complete online followed by our face to face 2 day intensive hands on workshop where you will be supervised in performing scans on live models. Limited places available and 1:4 hands-on training.
