

ULTRASOUND GUIDED PERIPHERAL INTRAVENOUS CANNULATION

COURSE OVERVIEW

This course is designed to enhance the skills and confidence of health professionals in ultrasound-guided vascular access.

A 2-hour, hands-on workshop follows in-depth online pre-course modules, which provide the basic principles of ultrasound and peripheral IV cannulation.

By the end of the course, participants will develop proficiency in probe manipulation with a systematic approach and demonstrate basic principles of ultrasound guided needle placement using in and out-of-plane techniques.

1:4 – Instructor to participant ratio to maximise active learning.

Pre-requisites: It is recommended that participants have prior knowledge of blood collection (venepuncture) or a background in healthcare.

Please note: a certificate of completion is supplied at the end of the course, practical competence is determined by your employer.

2026/27 COURSE DATES

BRISBANE 5+6 March 2027 Daily	8:00-10:00am 10:30-12:30pm 1:30-3:30pm
